#### WHAT IS INTERNATIONAL BUSINESS?

### WHAT PERCENTAGE OF YOUR STUDY TOUR COMPRISES OF <u>FUN....</u>

### What is a study tour?

- Global Study Tours consist of 80% company or institution visits, 10% cultural immersion and 10% spare time.
- Study tours are designed to be both fun and educational. Our groups enjoy the local cuisine, socialise, and make use of the local recreational and cultural resources of the areas that we visit. However, study tours are NOT party trips.
- A study tour is a travel experience with specific learning goals.

The learning outcomes of each study tour vary, but are always provided in the course outline that is distributed to each student. Study tours emphasize experiential learning and offer both group and self-directed activities that enable students to explore new territories, cultures, people and business models.

- Traveling with one of our groups
- No worries or hassles about where to stay, how to get there, or even checking in!
- The itineraries are designed to maximise your overall experience.

## What are the benefits?

- New ways of thinking about and doing business.
- Access to a network of the top students and businesses around the world.
- An opportunity to immerse yourself in a different culture, to use the exchange school as a central base for international travel.
- Job opportunities.

#### Assessment TWO (Part 2 OF 2 )

#### Question 1: (10 marks)

Peng and Meyer (2019), A country's institutions establish the formal and informal rules for operating in that country. Companies operating internationally need to know these because these 'rules' differ between countries, and because they shape greatly what can be achieved and what is not possible in a country. Institutions can be formal or informal. Formal institutions consist of laws, regulations and rules. Informal institutions consist of norms, cultures and ethics. Describe ONE of your host country's economy. Is it a market, command, or mixed economy?

#### Question 2: (15 marks)

Executives seeking to succeed in global markets should take into account different cultures of nations. In 1980, Geert Hofstede developed the cultural dimensions model. Since then, it has been applied widely by organizations. Using Hofstede's model, provide the various dimensions, within the context of your host country and explain the importance of culture when operating in cross border business.

#### Question 3: (15 Marks)

Douglas, Wind and Pelmutter (1973) advocated four approaches (EPRG) of International Business as follows:

- Ethnocentric Approach
- Polycentric Approach
- Regiocentric Approach
- Geocentric Approach

Provide TWO company examples of TWO of these approaches in your host country.

The purpose of this assignment is for you to think quick on your feet. It's fun and interesting. You will be allocated a syndicate group in your host country(ies) and will need to work as a team. The purpose of this assignment requires you to think out of the box and familiarise yourself with the environment. As a suggestion, download maps; know the history of the country, all online attractions and all modes of transport.

The purpose of this assessment is for participants to understand the importance of behaving ethically in their professional lives. Participants are required to fill in a self EQ Assessment, subsequently the respective Lead Academic will provide an overall score.
